

Employer's certificate, Miljödata AB

Erik Andersson, 890913-██████ has during his studies worked on the side at Miljödata AB. He has for instance worked every summer since the year of 2007 but also during various school holidays, most recently from 2010-06-14 to 2010-07-23.

The work has consisted of programming tasks. Erik made a very good job when he developed the company's internal systems, with features that are now in daily use. During the summer of 2010 Erik worked with a database for our customer contracts and programs that create invoice data from them.

Erik is accurate and has got a sense of responsibility. He quickly understands the routines and has during summer also helped with various chores in terms of operation and backups. He is very easy to cooperate with and is very appreciated at the company. Erik shows great commitment to his tasks and we wish him good luck in the future and give him our best recommendations.
