

Employer's certificate, Microwave Electronics Laboratory

Erik Andersson (890913-██████) has during the period of 2011-06-01 until 2011-08-15 been employed as project assistant at Microwave Electronics Laboratory, Department of Microtechnology and Nanoscience, Chalmers University of Technology.

His work has included development and programming of the GUI for a software collecting measurements in MATLAB. Besides the work with MATLAB he has also been carrying out simulations of electromagnetic fields in COMSOL Multiphysics. The simulations have been concerning quasi static fields in one and two dimensions.

Erik Andersson has carried out his tasks well organized and independent. We can give him our very best recommendations.
